I absolutely love this game concept. Part comic, animated film, and fighting game - super fun, immersive, and challenging - and with a great message. The illustrations are beautiful, and so is the music... I can't wait to play this game with my 9-year old niece. I hope the game developer and producer keeps making more games like this. Such a wonderful experience. Highly recommended, especially if you have kids.. Okay my main issues are that this game lacks any real solid in depth storyline, it feels like a expansion pack rather than a seperate game.

All the elements that made the last game interesting are gone... Now you can play against others, but with simplified gameplay which takes some of the elements of Darwania away in the process that made it stand out...

I do recommend it, but honestly... as I said this just feels like a expansion pack to Darwania and not a full game.. Game features check out.. I wish I could give any type of review, but since I've not been able to play it because of an "unknown disconnect" I keep getting, I am going to say that you shouldn't even bother with this one.. No music
No Ride Blueprints

Great puzzler for the programming inclined.

It forces you to think, ideally outside the box.

I recommend.. Nice little Indie game, I like the story and the jumping puzzles are pretty good.. Most of the negative reviews are seriously erroneous! Bought it at 6pm, started playing by 7pm cant stop at 1am.... Awesome tech tree / well thought out / everything works for me! Spent 35bar before I started showing a profit.. research research research & development and get the goods to market....and VOILA 28K a day profit. One of my competitors went out of business, LOL. Gonna start again in the morning on hard :) BUT there is undeveloped potential and lots of 'wish they had this' and 'wish it did that' but if you like tycoon economy games and are not too small minded to be satisfied with an evenings worth of solid entertainment thats all you'll get..... You'll enjoy the depth; you can mine or grow simple raw materials, you can produce primary product, you can use that to make components and you can assemble all of that to produce motor cars - AWESOME! WELL WELL WELL 10 hours in I find out the AI competition is not competition at all, it just throws in the towel for no reason at all. there is now no point to the game at all, just start another production line and make some more money and carry on alone on the map. ridiculous and I guess whats worse is the devs dont even respond on steam SO A BIG DONT WASTE YOUR TIME WITH THIS PIECE OF JUNK!. Its another clone of PUBG style games. With the diffrence being melee focused.. Only on the second set of levels, but this game is pretty relaxing ... I'm just sitting here playing it and watching an episode of The League ... overall smooth, great with controller and entertaining thus far.
